

BULYEA LIEUT. - GOV'R.

LAURIER COMING TO THE INAUGURAL.

Hon. A. E. Forget Lieutenant-Governor of Saskatchewan—A Sketch of Bulyea's Career.

Ottawa, Aug. 22.—Sir Wilfrid Laurier will accompany the Governor-General to the inaugural ceremonies at Edmonton and Regina. Hon. G. H. V. Bulyea was today appointed Lieutenant-Governor of Alberta, and Hon. A. E. Forget, Lieutenant-Governor of Saskatchewan.

Hon. Geo. Hedley Kears Bulyea, the first lieutenant governor of the new province of Alberta, is best known in his official capacity of commissioner of public works, and for many years, commissioner of agriculture for the North West Territories.

He is the son of James Albert Bulyea and Jane Blizard his wife, both descendants of the United Empire Loyalists. Mr. Bulyea was born at Gagetown, Queens County, N. B., on February 17, 1859, and was given his elementary education at the grammar school in that town. He is a graduate of the University of New Brunswick, 1878, and took up the commercial vocation of a general merchant.

Coming West and entering politics he was an unsuccessful candidate at the general Territorial election of 1891, but was elected at the general election of 1894. On accepting office as a non-resident member of the Haultain-Ross executive, in October, 1898, he was elected by acclamation.

In January, 1898, Mr. Bulyea was appointed Yukon commissioner for the Territorial government, and on returning to the North West was elected to the assembly at the general election of 1902. On January 12, 1899 he was appointed a commissioner of agricultural and territorial secretary in the Haultain administration, relinquished the portfolio of agriculture, and taking over that of public works in February, 1903.

The appointment of Mr. Bulyea to the position of lieutenant-governor of Alberta, marks another chapter in his political career. He and Mrs. Bulyea will be given a hearty reception in this province.

In reference to the wife of the new lieutenant-governor the Regina Standard says:—

Mrs. Bulyea, nee Rabbit, has always been exceedingly popular in this city and in fact wherever she is known. Her ways have been of the most pleasant and her departure for the government house of Alberta will be a distinct loss to Saskatchewan, and to Regina. Their numerous friends will, however, be pleased to congratulate Mr. and Mrs. Bulyea upon the honor that has come to them.

DRIVING CLUB MATINEE

The Driving Club have arranged a very good matinee for September 1. It is not the intention to make it a horse race, but rather an exhibition of speed for the purposes of entertaining the visitors to the city.

The races arranged are as follows: Race No. 1.—Trot, mile heats; 2 in 3; purse \$75, divided \$40, \$25, \$10.

Race No. 2.—Trot, half mile heats; 2 in 3; purse \$50, divided \$25, \$15, and \$10.

Race No. 3.—Five-eighths mile dash, open; purse, \$15, divided \$20, \$15 and \$10.

Race No. 4.—Boy's pony race, quarter mile, ponies 14-12 hands and under; purse \$30, divided \$15, \$10 and \$5.

Entrance fee for races, 1, 2 and 3, No. 4 free.

Starter, Geo. Manuel.

Judges, L. Corlies and W. R. West.

The harness events are club races, and the following horses are entered.

Race No. 1.—Silver Tip, Miss Elizabeth, Big Sandy, Woodlawn, Cyp, Grey Nelson, Dan Patchen, and Logan.

Race No. 2.—Nowsy McGregor, Jack Kirk, Mr. Dooley, Billy P., Cartier and Little Fred.

Races No. 3 and 4 are open.

EDMONTON AND STRATHCONA "KNOCKED" BY THE C.P.R.

Another addition to the long list of "knocks" which this city and district has received at the hands of the Canadian Pacific Railway Company is respectfully acknowledged.

On Friday last the following item was reproduced by The Bulletin from the Calgary Herald:

"The C. P. R. has placed a baggage car at the disposal of Alberta for the display of cereals, and especially fall wheat at the Toronto exhibition. The Edmonton district will have one half the car and the Calgary district the balance. The car leaves Calgary next Wednesday, therefore those who have good samples of grain they would like to see sent down east, should communicate with Secretary Peterson, of the board of trade at once. This concession of the railroad company means much to Alberta, and will supply the best possible form of advertising."

This was the first intimation received in this city that the company would send an exhibit to the Toronto exhibition. Secretary Fisher of the board of trade immediately got busy to ascertain the truth of the report that a representative exhibit might be prepared. A wire was sent to W. Toole, Calgary, head of the C. P. R. land department, by whom such matters are handled. Mr. Toole replied that he was taking the matter up with Winnipeg and would report later.

This was the first heard from Mr. Toole until 7.30 last evening, (Tuesday) when Mr. Fisher received a telegram to the effect that the car would leave Strathcona tomorrow (Thursday) morning. This left only one day in which to collect from the farmers, assort and arrange an exhibit worthy to represent the capabilities of this district at the greatest exhibition in Canada. The impossibility of doing so was so apparent that Mr. Toole was informed this morning that the board was greatly obliged for the courtesy of the company, but could not prepare the exhibit in the time given.

The Bulletin ascertained this morning that the Strathcona public bodies know as little of any proposed "exhibit" as the Edmonton authorities.

The Strathcona agent of the company this morning knew nothing of any proposed exhibit and no ear for such purpose had reached that town.

The plain inference from these facts is that the Canadian Pacific Railway company in preparing an exhibit of Alberta products for the Toronto fair, so arranged matters that no displays could be made by Strathcona or Edmonton districts.

The alternative is that Secretary Peterson of the Calgary board of trade was given full charge of the matter and is accordingly responsible personally, officially, or in collusion with the company for side-tracking the Edmonton and Strathcona districts.

An exhibit will therefore be made at the most largely attended exhibition in Canada, supposed to represent

CHARLES KING GETS A MONTH LONGER

Mathers, of Winnipeg, Goes to Supreme Court Bench and Clement, of Grand Forks, B. C. Judge of Kootenay

Ottawa, Aug. 22.—The execution of Charles King, at Fort Saskatchewan, for the murder of Edward Hayward, which was to have taken place on August 31, has been postponed until September 30, so that it will not cast a gloom over the inaugural festivities on September 1.

E. Mathers, of Winnipeg, has been elevated to the Supreme Court bench of Manitoba, and W. H. P. Clement, of Grand Forks, B. C. has been appointed judge for Kootenay district instead of Judge Lemay, deceased.

Edmonton and Strathcona "Knocked"

the agricultural resources of Alberta, but in which the rich agricultural districts surrounding Edmonton and Strathcona will have no part. Just how fairly the "exhibit" will display the resources of the Province may be gathered from the fact that according to the reports of the Northwest Government, which has never by its wildest opponents, been accused of unduly favoring "the North," the district from Wetaskiwin north is this year expected to produce over 5,000,000 bushels of grain, nearly twice as much as the estimated yield of the remaining portion of the Province.

It is of course the privilege of the Canadian Pacific Railway Company to exhibit the products of any particular locality it pleases wherever it may choose to do so, but to announce that half the display will be made up of products from this district, and then so arrange matters as to make the preparation of such exhibit impossible, is a piece of unpardonable and deliberate "knocking." While the various districts from which displays have been chosen will receive the immense benefit of this most practical advertisement of their advantages and resources, the valley of the North Saskatchewan including some of the finest farming land in the Canadian Northwest will be conspicuous by the absence of an exhibit.

The peculiar situation created, too, enables the company, if it should so choose, to represent to visitors to the fair, that Edmonton was forewarned but did not choose to make a display.

The truth of the matter is that the intention of the company to prepare an Alberta car was discovered only by accident and when discovered the officials of the Company so blockaded the information asked for as to make the preparation of a display impossible.

NOTION, VETERANS

The Imperial Service Medal Association, which has been assigned a place in the Imperial Parade which will take place in Edmonton on September 1st, is desirous that as large an attendance as possible of members be present on that occasion. Every man who possesses a medal is asked to join the parade, and signify his intention by communicating with the Hon. Sec., Will Godson, Strathcona, giving the name of his regiment and his service. As it will add greatly to the appearance of the parade, it is requested that as many men as possible have their medals mounted and in uniform. It is further asked that those who can come on horse-back should do so. Those who cannot should inform the secretary. This Association was formed about ten years ago and already numbers over one hundred members. The Indian Mutiny, the Fenian Raid, Indian Frontier, the Wolsley Expedition, the Nile Expedition, North West Rebellion, Malakale and Boer Wars, and many other medals are represented in the Association. The officers of the Association would like to see every man who has served in the army or navy and who holds an active service medal for same, join the Association. They take this opportunity of asking all such to communicate with Will Godson, Hon. Sec., Strathcona, who will be glad to furnish any information regarding the Association.

EDUCATIONAL MATTERS

In introducing the resolution regarding educational matters at the Regina Liberal convention Mr. J. A. Calder, late deputy commissioner of Education, said:

"Of all the resolutions submitted to the convention for consideration, there can be no more important one than that dealing with the subject of education. At the present time it appears to me to be our duty merely to enunciate the policy which in our opinion should be adopted by the government of Saskatchewan in dealing with the questions of schools. If our opponents attack the policy we shall at the right time and place, have ample opportunity to answer their arguments. Just now we do not know what stand they intend to take. It is quite true that Mr. Haultain has issued a statement, but we do not know that his opinion will prevail when the Conservative party meet in convention. When this party last met in convention at Moose Jaw, Mr. Haultain tells us plainly that he was unable to control it. Is it not just possible that the history of Moose Jaw convention will be repeated? Probably when their meeting is held they will have as many diverse opinions as had the Conservative leaders at Ottawa when the autonomy bills were under discussion. It may be that it will go the length of advocating, as did a Conservative gathering in Edmonton, for the complete abolition of minority schools. We are not, however, called upon to anticipate their attitude. When their policy is announced we shall have ample time to analyze it and contrast it with our own."

"Briefly stated the resolutions which I now submit mean that we recognize that we have an excellent system of common schools, a system which has stood the test of some three or four months' scrutiny and debate by the ablest men in Canada. More than that, we believe that the great majority of the people in the province are in hearty sympathy with the idea of rigidly adhering to the essential features of the existing system. For nearly a score of years we have lived and worked harmoniously together with that system, and today I think I am quite safe in asserting that outside of a limited number of extremists and a few leading politicians who are bound to stir up strife for federal party purposes, the masses of the people, including all classes and religions, would view unfavorably any disturbance of existing conditions."

"As you well know, Mr. Haultain himself, not long ago went out of his way to state that were he dictator in either of the new provinces, he would continue our school system as it at present exists. No one knows better than he how satisfactorily it has worked out. He knows perfectly well that from the standpoint of the welfare of the state—and that, I submit, is the supreme test—our present system has been so hedged round and fortified with wise restrictions as to ensure that every child in the province shall have an equal opportunity to acquire exactly the same education as every other child, whether in attendance in a public school, or in one of the six minority schools established many years ago in the province."

"Some of you may not be aware of the fact, but let me tell you this from 9 a.m. till 3:30 p.m., our school law and the regulations of the department provide for an identical system of instruction, control and supervision in all classes of schools. To illustrate what I mean let me refer you to the conditions prevailing in our minority school which exists here in our midst in Regina. This school is in charge of four teachers who have passed the same examinations and taken the same normal training as the teachers in the public schools. With the possible exception of two primary readers for infant classes, the use of which is entirely optional, the text books are identical with those used in the public schools. Until half-past three in the afternoon the same studies are pursued, and similar methods of instruction are adopted. Both schools are inspected by the same government inspector and are required to submit to the same tests of examination. In brief, I may say that in every particular these two schools carry on identically the same work. This being the case, what justification is there for an agitation to disturb these conditions?"

"I ask those of you who have been reading here in the Territories for many years, as I have, if before February last there was the slightest indication that the people of these territories were dissatisfied with the system I have briefly described. You know as well as I do that such was not the case. When and where then did this agitation have its origin? And what was its purpose? Surely we need not look far afield to find an answer to these questions. In simple, plain, straight language, the Conservative leaders at Ottawa hoped—yes, and still hope—to embarrass the present federal government by an appeal to race and religious prejudices, and it is a pity that with this as their motive they are aided and abetted by a few prominent Conservatives in the Territories. I hope you clearly understand what I mean. During the next few months we will hear a great deal about provincial rights, co-ordination, the constitution, etc., but when all the loud talk and fiery speeches are carefully sifted, and all the chaff blown away, you will find but one idea, one set purpose, namely to use the school question as an issue for Tory party purposes."

"And if our opponents disclaim any intention of disturbing the existing school system, why should some of them at this juncture in our history and development insist on an agitation in favor of ascertaining forthwith whether we have the constitutional right to do something which even Mr. Haultain himself would not do? They are either in favor of continuing existing conditions or they are not. If not so, let them say so. They should at least be honest. Personally I cannot help but admire the candor and courage of those Edmonton Conservatives who gave voice to their opinion so clearly. Without any equivocation they declare for the abolition of separate schools. This is an issue that can be squarely met. But when we are asked in other quarters to favor a nice little appeal to the courts for the mere purpose of determining a constitutional point that may or may not have any practical bearing, we naturally enquire why we should do so. It seems to me that this harmless, peace-making constitutional question will not lose one iota of its force if at the present time the people of these Territories turn their attention to other matters that are of vastly greater importance in this stage of our development. Should the time ever come when our system of education is not what it should be, if it becomes marred with defects, if abuse and evils creep into it, then will be the time to act, and if I know anything of the traditions of the Liberal party at all, I am sure that when that time comes, as I hope it never will, there will be no doubt as to the stand the Liberal party will take."

"For the present, then, it appears to me to be our manifest duty to stand out boldly for the maintenance and efficient up-building of our common school system as it exists today. And what is of vastly more importance we should stand firm and insist upon the rapid

WHY LORD CURZON GAVE UP

London, Aug. 22.—The resignation of Lord Curzon of Kedleston as viceroy of India, and the appointment of the Earl of Linlithgow as his successor, was announced at the Indian office, according to the correspondence, which is issued in the form of a white book, it appears that Lord Curzon's resignation was cabled to that office on Aug. 12.

The correspondent shows a decidedly bitter feeling between Lord Curzon, the Indian office, and Lord Kitchener, commander-in-chief of the forces in India, over the new scheme of army administration in India. Lord Curzon's dissatisfaction came to a head with the refusal of the cabinet to appoint Major-General Sir Edmund Barrow, on Lord Curzon's recommendation, military supply member of the council.

Replying on Aug. 8 to the refusal of Mr. Broderick, secretary of state of India, to make this appointment, Lord Curzon requests that the Government reconsider its decision "in order to enable me to accept the responsibility which I infer his majesty's government desires me to." Mr. Broderick again refused to comply with the request for the appointment of Major-General Barrow, and Lord Curzon replied as follows: "It is important that his majesty's government deny me that confidence which alone can enable me to serve them, and attach a fundamentally different interpretation from myself to the modification upon the acceptance at which I alone consented to remain in office. The situation therefore remains where it was when I resigned in June. If the government are unable to accept my views, I request the premier to place my resignation in the hands of His Majesty."

To this Mr. Broderick replied that there was a request from Mr. Balfour that Lord Curzon reconsider his determination. In a final despatch, however, dated August 12, Lord Curzon says: "The main question is not the choice of individual, but one of principles underlying a future change in our administration. I am driven to the conclusion that the policy of His Majesty's government is based on principles which I could not conscientiously carry into execution. In the interests of the new organization it is desirable that I should be relieved of my duties with as little delay as possible."

To this Mr. Balfour himself replied that he had "with the profoundest regret presented Lord Curzon's resignation to the King." Supplementary despatches after the receipt of the resignation show, firstly that Lord Curzon and Lord Kitchener were unable to agree over the details of the reorganization, and secondly that Lord Curzon at the time he left England, expressed his disagreement with the scheme, "but," says he, "I loyally commenced the undertaking, and only resigned when I realized that conflicts were certain to arise between the commander-in-chief and the rest of the government of India."

His concluding sentence reads: "I reflect with sorrow how little justification there has been for the claim you make of having rendered me your constant support."

The Committee of the Inauguration Hall wish to impress upon those who care to attend, the necessity of procuring tickets at once. In order that the Committee may know how many they have to provide accommodation and supper for, they have decided to stop the sale of tickets on the 28th instant. Tickets can be purchased at Archibald's and at Carpenter's drug stores, and from the different members of the committee.

Electrocuted at Whithy

Whithy, Ont., Aug. 20.—George H. Jordan, engineer at the Whithy electric light and water plant, was electrocuted here yesterday. He was showing his assistant, Mr. Clatworthy, how to put in plugs when the time came to shut off the street lights, and he received the full force of a current of 2,220 volts, which had been short-circuited through his hands. Clatworthy seized Jordan and pulled him away from the current, but it was too late to save his life.

Save the Sticker

London, Aug. 22.—Referring to Mr. George's declaration that Canada was to maintain her tariff barriers against England, the Yorkshire Colonies to maintain a tariff for the exclusion of our goods, it only destroys the whole part of Mr. Chamberlain's design, but does more, it makes the whole scheme to ruin.

JAPANESE HOLD FAST

TO THE TERMS OFFERED

Substantial Re-Imbursement and the Retrocession of Sakhalien will be Insisted on

Portsmouth, Aug. 22.—The associated press is able to announce that the feature of the proposition of President Roosevelt communicated through Baron De Rosen to M. Witte, and transmitted by the latter to Emperor Nicholas, was based upon the principle of arbitration. Whether the proposal contemplates arbitration of all the articles upon which the plenipotentiaries have failed to agree, or only upon the question of arbitration cannot be stated with positiveness, but it is more than possible that it relates only to indemnity and the cession of the island of Sakhalien. Neither is it possible to say whether the president has made a similar proposition to Japan. The customary diplomatic proceeding in such a case would be to submit the proposal simultaneously to both countries, but there might be an advantage in securing the adherence of one before submitting it to the other. To Emperor Nicholas, the author of the Hague peace conference, the suggestion of arbitration which will necessarily command the public opinion of the world will be particularly hard to reject. If he agrees, Japan, if she has not already done so, would be all the more bound to submit her claims to the decision of an impartial arbitrator. Acceptance by both sides would involve a great extension of the principle of arbitration, as nations have heretofore declined to arbitrate questions involving their honor and dignity. Both Mr. Takahira and M. Witte in the earlier stages of the conference absolutely rejected the idea of arbitration, and only yesterday both reiterated their lack of belief in such a solution. It was noticed, however, that M. Witte's opinion was not expressed as strongly as last week.

The chances of peace have undoubtedly been improved by President Roosevelt's action in stepping into the breach in the last heroic endeavor to induce the warring countries to compromise their "irreconcilable differences," but the result is still in suspense. The ultimate decision of the issue has de facto if not de jure passed from the plenipotentiaries to their principals, from Portsmouth to St. Petersburg, and perhaps in a lesser extent to Tokio. Although there are collateral evidence that pressure, both by President Roosevelt and neutral powers, including Japan's ally Great Britain, is still being exerted at Tokio to induce Japan to moderate her demands, there is also reason to believe that President Roosevelt was able at his interview with Baron De Rosen to practically communicate to M. Witte Japan's irreducible minimum, what she would yield, but the point beyond which she would not go. Whether an actual basis of compromise was proposed by the president cannot be stated definitely.

The only thing that can be affirmed is that if Russia refuses to act upon the suggestion or proposition of President Roosevelt the peace conference will end in failure. In the Russian camp little encouragement is given. Baron De Rosen reached here after an all night ride from Oyster Bay shortly before noon, and immediately went into conference with M. Witte. They remained closeted together for about three hours, during which the whole situation was reviewed. Baron De Rosen communicated to his chief the president's message, and it was transmitted to the emperor together with M. Witte's recommendation. Obtained, they decline to relinquish recommendation has transpired, but it can be said that M. Witte, no matter how he may personally view the proposition, is distinctly pessimistic as to the character of the response which will come from St. Petersburg. To a confidential friend he offered little hope of a change in the situation. The Japanese, it is believed, cling to the substance if not the form of this demand for remuneration for "the cost of war."

Perhaps they are willing to decrease the sum asked, but substantial compensation, under whatever guise it is obtained, the decline to relinquish, and they are also firm on the retrocession of Sakhalien. By the transfer of the southern branch of the Chinese Eastern railways first to Japan for relinquishment to China, payment for the maintenance of the Russian prisoners and the surrender of the Russian warships, it is possible to figure out a total transfer to Japan of money and property of about \$250,000,000. But this is the limit.

MANITOBA CROP TWENTY-FIVE BUSHELS PER ACRE

The Norway Government Arranging For the Separation From Sweden

Winnipeg, March 22.—Premier Roblin, after touring Manitoba, declares the crop will average over 25 bushels to the acre, but that it is maturing so fast that much grain will be lost owing to the lack of harvesters. Thirty thousand men in all passed through here yesterday, but they will be snapped up before reaching the Territories, as men are very scarce.

Portsmouth, N. H., Aug. 22.—This morning is expected to determine the fate of peace negotiations. On adjournment from yesterday "Tuesday" it was considered just possible that a middle way might have been found informally in the meantime, but the whole tone of the press of each country makes it doubly hard for either party to yield. It is generally conceded that the war will continue, and that the Japanese will make a vigorous attempt to dislodge Lincolnton and invest Vladivostok before the coming of winter.

Tangier, March 22.—The French minister, St. Bene Tallandier, has presented to the Mulai Ab Del Aziz, an energetic demand for an indemnity of \$2,000 for the recent arrest of a Franco-Algerian citizen. The minister also demands punishment of the official responsible for the arrest and an additional indemnity of \$100 daily until the prisoner is released.

Christiana, Norway, Aug. 2.—The Storting today adopted by a vote of 104 to 11 the proposals of the government for the formal opening of negotiations with Sweden for the dissolution of the union. The government proposed to communicate the result of the recent referendum to the Swedish government, and to ask it to accept abrogation of the act of union and to co-operate in negotiations for a pacific settlement of the questions connected with the dissolution including those raised by the Swedish Riksdag.

The Storting also granted power to the government to conduct the negotiations.

SOUTHERN FEUDS.

Harrison, Tenn., Aug. 22.—According to information received here a feud battle occurred yesterday near Alice station on the Queen and Crescent railroad, a few miles south of Harrison Junction, in which Frederick Miller and his son John Miller, aged 23, and Fred Johnson, were killed, and Henry Miller, another son of Frederick Miller, aged 18, was dangerously wounded. They were fired upon by men from ambush. For more than twenty years a feud war has raged between Miller and Hawkins families. It is not known what members of the latter family were engaged in the fight.

Clay City, Ky., Aug. 22.—In a feud fight on Black Creek in Powell county, yesterday, Campbell Anderson was killed, and Tom and Cole Morton, brothers, were seriously wounded. W. I. Peasley and Troy Plunkett were slightly injured. All of the men were prominent in Lee county and have long been known as members of fighting families of early feud days.

Why It Didn't Pay

The editor of the Midland Farmer makes the following very pertinent remark about Missouri farmers, and it is worth a perusal by any agriculturist. He says:—

"A few years ago we, one day took dinner at a farmer's house, and here is what we noticed—the cloth which was spread on the table was made in Ireland; the dishes on which the food was served came from England; the fried hens, for which our host had paid five cents a pound, was not unlikely part of the same hen which he had raised some months before at three cents a pound; the pickles were made in Chicago; the sauer-kraut in Dubuque; the bread, cake and peanut were made from flour in Minneapolis; the shortening used was packing-house lard from Chicago; the canned corn was from Maine, and the sugar was dried fruit raised in California; the butter was apologized for as being made in Wisconsin; the family cow being dry, the salt came from New York state and the coffee from Brazil, and for a last thing, something which was not mentioned, but which was a city promise on the farm, was the

blessing asked on the food and the appetites which consumed the good things. And this man was working like a slave to raise at that time 15-cent oats and corn, and hoes at 85 per hundred-weight to pay the bills for this sort of living.

This is all wrong. Just so far as intelligent skill and care exercised both in the farm home and on the farm itself will permit, the raw material produced on the farm should be there so used and converted into finished products as to supply as far as possible, the home needs of the farmer and his family. This is one of the very best arguments in favor of farm life. That the man on the farm can have, if he will, the first fruit of the poultry yard, the dairy, the field, the orchard, and not only the first fruits, but the opportunity, if he will improve it, to so prepare and store these products that it shall be harvest time for every day in the year. A system of agriculture which consistently raises 52-cent oats to pay for 15-cent hoes, which willingly exchanges a bushel of western corn for two ears of Maine corn, has slipped a cog and needs overhauling."

Canadian Goods for Australia

From eighteen hundred to two thousand tons of general merchandise, besides her sixteen hundred tons of bunker coal, was carried from Vancouver by the steamship Manuka when she sailed for Sydney, Australia, on August 18. She was a full ship and practically every ton of stuff she took from Vancouver was of Canadian manufacture.

One of the largest single shipments of agriculture machinery of Eastern Canadian manufacture was sent to Sydney on the Manuka. This machinery ran into between four hundred and five hundred tons.

Several tons of Salmon of this season's pack was shipped to Sydney. Nearly all this salmon was from the Skeena River, as the fish from that stream have found more favor with the Australians than the fish from the Fraser, notwithstanding that in this country the latter are deemed the best product of this coast.

Other articles of export by the Manuka were news paper from the pulp and paper mills of Quebec, rye whisky from the great distilleries of Ontario furniture from Ontario, and computing machinery from the same province.

Maritime Union

Yarmouth, Aug. 22.—The Maritime board of trade has pronounced in favor of legislation for union in the Maritime provinces, the following being the resolution adopted: "That in the opinion of this meeting the time has come for the union of the three provinces of New Brunswick, Nova Scotia and Prince Edward Island, and that a memorial to this effect be forwarded to each of the Governments concerned and that they be urged to arrange meetings of representatives from each government at an early date. A permanent delegation committee, to proceed to the capital as occasion demands in the interests of the provinces, was also appointed."

Lifebuoy Soap—disinfectant—is strongly recommended by the medical profession as a safeguard against infectious diseases.

The conditions under which my
Pharaoh Cigar

is made are ideal.

We have a contented little community of our own, that is not worried by outside conditions. The wholesome, country-town life that we live, tells in the quality of our work.

Every employee in my factory has his whole heart in his work. From the oldest workman, who started with me when I had a small room for a factory, a big bunch of enthusiasm and a high idea of quality, down to the lad who just joined us the other day, every one is putting the best that is in him into his work.

Under such conditions it is no wonder that my Pharaoh is the best ten cent smoke on the market. We are all working with the one object—to produce the best cigar possible.

I go to Cuba every year and buy the best tobacco produced. I know that every leaf that comes to my factory is right. My workmen are that every roll they give it will help make it a perfect, even-burning smoke. It's a combination that's hard to beat.

Not genuine unless branded "Pharaoh." Price 10 cents.

extension of that system to all sections, classes and nationalities of our very complex population. At present there are thousands of children in this province who are not attending any school. Surely the government of our province will have ample work on its hands if it earnestly strives to bring our present educational facilities within the reach of the children who are rapidly populating these plains. From every corner of our province the cry is going up, "Give us schools." And while much has been done to meet this cry, much more remains to be done.

"As a Liberal party, we should also stand for the principle of giving liberal grants in support of schools. Education is now universally recognized as a state function, and as such, it is the duty of the state to assume a large share of its costs, and as far as it is possible, to throw the balance of the burden upon all tax-producing property, but in such a way as to reduce to a minimum the amount to be paid by pioneer settlers. There are, as you know, in this country, large tracts of land not included in school districts, that do not pay one cent towards the cost of education. In the meantime, through the building of roads, the organization of school districts, and the general development of the country, these lands, which are mostly in the hands of speculators and corporations, are being enhanced in value. Is it reasonable that these lands should continue to be exempt from paying their reasonable share towards the cost of maintaining efficient schools? I am strongly inclined to think that it is not, and that it will be the duty of the government of our province to seriously consider the question of devising some means whereby all properties in carrying a fair and reasonable proportion of what at most will be available for taxation shall bear a comparatively light burden.

"The last clause in the resolution I have read sets forth our belief in the principle of full departmental control and supervision over all classes of schools. This is exactly what we have at the present time, and this we believe, should be maintained and continued. It is scarcely necessary for me to remind you that we have not in any sense clerical schools such as they had in Manitoba at one time. The conditions which existed there, do not exist here, and never can without the sanction and approval of the legislature. Of course it may be argued, as it already has been argued, that the commissioner of education, on his own authority, may, by regulation, effect important changes in our school system. While this may be true, we must not lose sight of the fact that the administrative head of the department will be responsible to the assembly and that his acts will always be subject to revision by that body. It appears to me that there is not the slightest danger from this quarter. But even if there were, it would be a very simple matter for the legislature to require that all new regulations, before going into effect, should be submitted to the House for approval.

"To sum the matter up and state it in other words, the last clause in this resolution declares that we are in favor of the Government having and retaining full control over the licensing and examination of teachers, the selection of text books, the adoption of courses of study, the inspection and examination of schools, the training of teachers and all other kindred matters."

BASEBALL

By a score of 9 to 6 the Wetaskiwin ball team defeated the Capitals last night. The game was a rugged one on both sides, but the Capitals showed their lack of practice very much and let the visitors run away with them in the two first innings. Wetaskiwin went to bat, Deaton coming first. He was the star batter of the game, and if he still belonged to the Capitals the score would have been reversed, as he made three runs to the home plate himself, and let another run in. He began with a three bagger, Goucher, Martin, and Pittman got hits and the two first and Deaton got home, making three runs in the first. The next three who went to bat retired the side. Maloney came up for the home team and got first, Bishopric not a base on balls, but Till was caught on a long fly; Castor struck out and Milne died on first. In the second innings Wetaskiwin

scored three runs, after Goucher was caught out on a fly, another fly and a strike out retired the side. The Capitals then came up and started a merry-go-round. Maloney, Setter, Ingalls, and Hunt scored and the side retired with Bishopric and Till on bases.

In the third innings both sides scored two runs each and in the fourth both were retired without scoring. In the fifth Wetaskiwin scored one and the home team nothing, and in the sixth and last neither team scored.

The game was not fast at any stage and was played with the utmost good nature. In the sixth innings Bishopric slipped at first base and unfortunately broke his leg.

The line-up of the teams was as follows:

Maloney,	3b.	Stokes
Bishopric,	c.f.	Gawler
Till,	1b.	Deaton
Castor,	c.	Goucher
Milne,	2b.	Barrett
Setter,	r.f.	Pittman
Ingalls,	s.s.	Nelson
Hunt,	lb.	Martin
McLachlan,	p.	McCartney

The score by innings was:

Wetaskiwin	9	2	3	4	5	6
Capitals	3	3	2	0	1	0-9

Hudson Bay Stores

We have just received a big consignment of

FLAGS

AND

Bunting

for the Ceremony on the
1st of September.

Everyone should make it a duty to decorate their homes for this great occasion.

We would also ask all those intending purchasers to select or place their orders with us at their earliest convenience to avoid the rush of the last few days.
